## Roadware in Mississippi! Whoopee!

We couldn't be happier and knew we had to share the news with you! Earlier this month Roadware received notification that it has been selected for contract negotiations for a Pavement Condition Survey project with Mississippi Department of Transportation!

Roadware has had long standing relationships with many of the southeastern region Departments of Transportation. Roadware's list of clients in the southeast includes:

- Maryland SHA
- Delaware DOT
- West Virginia DOT
- Virginia DOT
- North Carolina DOT
- Georgia DOT
- Louisiana DOTD
- Arkansas SHTD

Mississippi is one of the very few southeastern states with which Roadware has never partnered. The addition of Mississippi DOT to our client list means that, to date, Roadware has partnered with two-thirds of the southeastern DOTs!

## Project Specs for Mississippi DOT:

- Video-logging
- Statewide distress analysis
- Data reporting
- Roughness data collection for HPMS road sections of non state-maintained roads

We are excited to begin this new relationship with Mississippi DOT, and to have the opportunity to provide the high quality data collection services for which Roadware has become known. Stay tuned as we attempt to paint the remaining one-third of the southeast orange!

Give us a call at 800-828-2726, e-mail us at [info@roadware.com](mailto:info@roadware.com), or speak with us at the [APWA International Public Works Congress](#) or at [other conferences](#) we will be attending to discuss how Roadware can be a part of your pavement and asset management initiatives.

Bonnie Collins, Editor
